## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 37 and 70 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by D'Agostino et al, U. S. Patent 4,012,303.

Claims are anticipated when both  $A_1$  and  $A_2$  are H, which is permitted when one of  $B_1$  and  $B_2$  are not H.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1, 37, 69, 70 and 81 are rejected under 35 U.S.C. 103(a) as being unpatentable over D'Agostino et al, U. S. Patent 4,012,303, in view of Wei et al, U. S. Patent 5,422,411.

Reference to D'Agostino et al teaches grafting polymers with trifluorostyrene and functionalizing for use as membranes. Wei et al teaches the equivalence of trifluorostyrene and substituted trifluorostyrene in membranes for the same applications. It would be prima facie obvious, therefore, to use substituted trifluorostyrene in place of the trifluorostyrene in D'Agostino et al absent evidence of unexpected results commensurate in scope to the claims. Reference to Wei et al provides motivation to one

of ordinary skill in the art to use the substituted trifluorostyrene in place of the trifluorostyrene with a reasonable expectation of equivalence.
